John C. Buckley Writes Blackfoot M. D. Regular Letter re Car-Order Book Council Meeting

Editor Call.

Dear Sir:—Your news item of last issue re stapling of the car order book leaves rather much room for speculative suspicion, but I presume you published the news as it was handed to you, and in view of the fact that there has been a great amount of acrimonious discussion over it, with your permission, I would like to state the facts, so that the man that runs can read.

It is quite true the car-order book has been discarded for some years, as crops were sometimes light, cars plenty and motor trucks were not in evidence, to rush so much grain into the elevator so early in the season. When the local Pool Board saw that their elevator was almost full, others partly filled or almost empty, they decided that equal distribution of cars would not be fair, but distribution should be in proportion to the intake of grain, and unless some other way could be devised to attain this, to order by book; and on account of my former experience, and close proximity to town, requested me to watch the book on their behalf; so after careful consideration of conditions, I obtained ten proxies from persons who had wheat in the elevator to ship, intending to sign myself also, and started the car-order book, which any person having grain to ship has a perfect right to do under the Canada Grain Act, and no person can truthfully say injustice was done anywhere by this action, all other elevators having plenty of room. Any injustice inflicted, was by those who cramped the book with names of people who had not the grain to ship.

I am very much surprised the detective who visited our town was not successful in laying the blame, for as I see it, the margin of suspicion is very narrow, either someone was dissatisfied because their order was so far down on the list, or someone had infringed the law, and was determined to get rid of the incriminating evidence, but whoever the culprit is, he is very familiar with the files in the freight office, as he took the proxies also, and by way of encouragement a reward of two hundred dollars has been offered, contributed by Messrs. F. Daw, R. P. Umbrite, A. F. Wilson and John C. Buckley, \$50 each, to any person, who will give information leading to the conviction of the thief, as the Pool Board and members consider, that the car-order book method of distribution gives justice to all, no person can object to its operation unless they want to profit by stealing the rights of others or gain some pecuniary advantage by its absence. Trusting you will welcome, as I will, any comment on my statements, provided they will sign their name for publication, and hoping that all will co-operate as men in the honest operation of the book which the Board of Grain Commissioners have ordered re-instated, a correct copy of which was procurable.

Yours sincerely,
JOHN C. BUCKLEY.

PRAIRIE FIRE WARNING

The large number of prairie fires in the prairie provinces this fall should be a warning to exercise more than ordinary precaution at the present time.

There is an exceptionally heavy growth on the prairie and an abundance of stubble and grain stacks, which adds to the risk.

Hunters and auto drivers should be exceptionally careful in throwing away cigar and cigarette stubs, and matches as the least blaze or spark is very liable to start a fire just now. Too much is at stake for the farmers, for any one to take any chances.

R. W. Harrison, our merchant prince has issued a lot of big posters he had printed in Calgary in which he advises: "Buy at Home and Save." Some sage once wrote: Consistency thou art a jewel. Of course all the Calgary printers are rushing down to get theirs.

TENTH MEETING, 1928
Minutes of Council Meeting of the Council of the M.D. of Blackfoot, No. 218, held in the Municipal Office, Gleichen, Tuesday.

At the tenth meeting of the Blackfoot M. D. there were present Reeve Thorssen, Deputy Reeve Duncan McBean and Councillors Dunstan, Maynard and David McBean.

Duncan McBean carried a motion that the minutes of the ninth meeting and special meeting of Sept. 26, be adopted as read.

The secretary-treasurer reported that Councillor David McBean and the road commissioner had arranged for 1000 ft. B.M. lumber be allowed or deck of a temporary crossing of the creek west 6-24-22-4th. and that Mr. Lavridsen had hauled this material from the municipal yard.

The road commissioner reported that as arranged at the last regular meeting of the Council he had met Mr. Stockton, Mr. Ridley and Mr. Downey, of the C. P. R. and viewed the ground where the seepage from the C.P.R. ditches was damaging our roads, mentioning each location visited and the discussion between the C.P.R. representatives and himself.

A letter from Mr. Sipekton, under date of Sept 29th inst., advising that he would, without admitting any liability on their part, arrange to have one of their excavators dig the wet portion of the road north and east of section 32-22-23 providing that the municipality will spread the excavated material and finish the road. When future conditions seem to warrant it and when their excavator is in the vicinity they will do the same thing at other points.

A letter was read from a resident ratepayer regarding the conduct of Weed Inspector Sanders.

Mr. Sanders reported that he had given this man ample opportunity to destroy weeds growing upon his property and had finally been compelled to lay a charge before the local justice of peace for failure to carry out instructions of notice served by himself.

Coun. Dunstan: That we accept our weed inspector's report as satisfactory.—Carried.

The reeve reported that he had on Sept. 18th delegated Weed Inspector Sanders to act as tax collector in conjunction with his duties as weed inspector.

Coun. Duncan McBean: That we ratify our Reeve's action in delegating Weed Inspector Sanders to act in the capacity of tax collector.—Carried.

The monthly financial statement was read also a letter from the Consumers Lumber Company advising that they were rushing the car of six by six timbers ordered some time ago.

Reeve Thorssen: That we approve the preliminary agreement signed by Clement Nielson in respect to .72 acres public road and .56 north westerly corner cut by the said road from the S. W. 14-24-23-4th. 1.28 acres at \$25.00, per acre, \$32.00, and that settlement be made.—Carried.

Weed Supervisor Ewing gave a report of his season's work and expressed himself grateful for the splendid support and hearty co-operation given by the Blackfoot Council.

Application from the secretary-treasurer of Chancellor Great War Veterans Memorial Hall requesting exemption and cancellation of taxes on said Hall was read.

Coun. Dunstan: That the secretary-treasurer correspond with the Department of Municipal Affairs, Edmonton, regarding the legality of cancelling taxes levied against Chancellor Great War Veterans Memorial Hall.—Carried.

Coun. Dunstan: That the accounts and pay sheets as O.K.'ed by the finance committee be passed and ordered paid.—Carried.

Coun. Duncan McBean: That application be made to the Department of Public Works to have the bridge south of Section 25-22-23-4th. renewed this coming season.—Carried.

Old-Timers Dance

Third Annual Friday, December 7

The Old Timers dance committee have decided to hold the Third Annual Old Timers Ball on Friday, December 7th.

The admission has been set at one dollar for each person including supper.

The committee decided to offer prizes for the person selling the largest number of tickets:

1st prize to the person selling the most tickets will be one ticket good for one year's admission to the picture shows.

2nd prize to the person selling the next largest number of tickets will be one ticket good for six months admission to the picture shows.

3rd prize to the person selling the next largest number of tickets will be one ticket good for three months admission to the picture shows.

These tickets will be transferable.

The ladies of the Gleichen Women's Institute will put on the supper which is a guarantee of an excellent meal. Special arrangements are now being made to ensure a plentiful supply of buffalo meat, so that there will be plenty for everybody. Dining room will open at 10 p.m. and be kept open until everyone is satisfied.

Further announcements will be made from time to time as arrangements are completed.

The committees are working on several new features for your entertainment and they expect this year's dance to be bigger and better than ever.

Remember the date, December 7th, the outstanding event of the season.

United Church Old Timers Service and Social Nov. 4 and 5

Just twenty years ago this month a number of Gleichen old timers completed a building on the corner of Crowfoot Street and Sixth Ave. in the town of Gleichen and dedicated this building to the worship of God. This building is known today as the Gleichen United Church. The present congregation look back upon these old timers with deep thankfulness.

On Sunday and Monday, November 4th and 5th, an Old Timers Services

will be held. On Sunday Rev. Joseph Lee, who was the minister here at the time the church was dedicated, will preach. On Monday evening a congregational social will be held in the church, when all old timers and all new comers are invited. It is expected that messages from former ministers will form a part of Monday night's program.

All are invited to attend these services.

Oratorical Contest

Announcement is made that Alberta school students in Grades IX, X, XI and XII, whether in high school or public school continuation classes, will take part in the International Oratorical Contest (Alberta Division) in 1929. Alberta students first entered in the International Oratorical Contest last winter, and Miss Margaret Kinney, Edmonton, was the winner. She was sent down to Toronto for the Canadian finals where she made a splendid impression. More than three hundred schools took part in the preliminary competitions in the last contest and it is expected that more than five hundred will take part in the preliminaries for 1929.

The winners in the individual schools must be determined on or by December 15th. The district winners on or by February 15th. The fourteen district winners in Northern Alberta will meet in Edmonton during Easter week and the fourteen in Southern Alberta will meet in Calgary the same week. The finals will take place in Edmonton a little later and in May the winner will be sent to Toronto for the Canadian championship.

The expenses of the district winners, who are to go to Calgary or to Edmonton, are paid by the sponsors of the contest in Alberta. These winners also receive a \$10 gold piece, and the runner-up in each district will receive a \$5 gold piece. The winner in the Alberta finals receives \$200 and a free trip to Toronto and a chaperone, if a girl, and the runner up in Alberta receives \$50. Each school, producing a winner, is given two recommended books.

The contest is sponsored in Southern Alberta by the Calgary Herald, and in Northern Alberta by The Edmonton Journal. Roughly speaking, Lacombe is the dividing line of these sections.

There are no formalities connected with students entering, except that the coupon must be filled in and sent either to The Journal or The Herald. The contest is strongly endorsed by Premier Mackenzie, Hon. R. B. Bennett and other leading Canadians, for two reasons—One that it promotes among our rising generation facility in public speaking and the other that it spreads throughout the Dominion a sounder knowledge of Canada and Canada's aims.

Telling the World

Each new motion picture has a direct reaction upon women's fashions. Now it's Chinese influence, and all this because William Haines is starring in Metro-Goldwyn-Mayer's "Telling the World," which comes to the Gleichen Community Hall next Saturday night.

Anita Page, who plays leading feminine role, has found many new fads among the native girls who play in the production.

The use of white by the Orientals of high caste is one item. Miss Page has selected a modern white sport dress with the Chinese motif carried out. It is made of raw silk and is trimmed with an inch-wide standing collar which is embroidered in a Chinese pattern with gold thread. The same pattern appears on the skirt.

The five-claw dragon, which may be worn by mandarins and their families, is used to decorate a stunning evening wrap in Miss Page's collection. The sacred symbol is spread across the back of the garment and no other trimming appears on the wrap.

High caste women do not wear trousers, except when they are covered by long skirts. Only the peasants wear trousers, but they are so picturesque that Miss Page, for her boudoir, has selected Chinese pajamas of raw silk in the bright colors—red, green and orange. These have the long fitted cloaks split up the sides, and narrow, standing collars.

Sam Wood directed "Telling the World," which is a romance of the press association in which Haines rescues Miss Page from the vengeance of a warlord in the interior of China.

that, provided these British harvesters are prepared to accept reasonable employment for the coming winter months, at wages which farmers are willing to pay, these jobs will be forthcoming.

The main difficulty is to get in touch with the men who are prepared to remain in this country and to put them in touch with winter jobs before they lessen their chances of securing these jobs by leaving the district in which they are at present working and congregating in the larger centres such as Calgary, Edmonton and Winnipeg. There is no advantage from the harvesters' point of view in coming to town as they only have to bear the expense of travelling back to a country point and their chance of securing work in the cities is small.

They stand a much better chance of securing work if they retain their present employment as long as it is available for them and in the meantime, secure work for the winter with the farmers with whom they are thrown in contact. Failing this, they can receive the assistance of the officials of the Land Settlement Branch who are located at central points throughout the province to whom almost any farmer can direct them, or their local station agent or the local employment office which organization has 200 voluntary agents throughout the province.

There is however, a great body of harvesters who are willing and are anxious to remain in Western Canada providing they can secure winter employment. If these men can tide themselves over the winter and during that period familiarise themselves further with farm work, they should be able to earn satisfactory wages in the spring and have no difficulty in securing farm work on a yearly basis at wages which will leave them in very much better circumstances than those under which they were working in England.

The Dominion Government through the Land Settlement Branch, both railway companies through their colonization branches and station agents, the Provincial Government through the employment offices, have undertaken to make every possible effort to assist these men in finding winter employment. The experience in handling the British harvester movement in 1927 was that the organizations mentioned above had more applications for winter farm help than there were harvesters to fill these positions and there is little doubt

MADE IN CANADA NO ALUMINUM

E.W. GILLET CO. LTD. TORONTO, CAN.

Final Estimate of Western Wheat Crop

Grain Dealers' Association Buels Total at 538,450,000 bushels

Western Canada is harvesting a total of 538,450,000 bushels of wheat. This is the final estimate of the Northwest Grain Dealers' Association. It shows an increase of nearly fifty million bushels over previous estimates. This is based on the thrashing returns, and the statement says 80 per cent of all wheat is thrashed and the proportionate increase in fall plowing may bring the acreage up to 25 million next year as compared with 23 this season.

In 1914 the yield is 316,714,000 bushels with 85 per cent thrashed. In 1915, 318,750,000 bushels, with 85 per cent thrashed. In 1916, 318,750,000 bushels, with 84 per cent thrashed. In 1917, 318,750,000 bushels, with 84 per cent thrashed.

Singapore's Huge Floating Dock

First Porton Has Completed Eight Thousand Mile Journey

After a four months' voyage from England, the first portion of the new British naval dock, which is being built at Singapore, has completed a journey of 8,000 miles by way of the Suez Canal.

The shipyard, which is completed, will be the largest floating dock in the world and large enough to hold any British warship weighing 50,000 tons and contains 20,000 tons of steel. It cost \$50,000,000.

The contract for completing the dockyard was awarded on September 27, and the dock is expected to be in operation by the year 1935. It is estimated that the naval part of the project will cost \$75,000,000.

Lord Birkenhead, secretary of state for India since 1924, is resigned from the Indian cabinet, and will follow commercial activities in London.

A trainload of 1,500 head of cattle owned by a group of ranchers from the Peace country, reached Edmonton recently over the Edmonton, Dugway and British Columbia Railway.

A guarantee of tonnage, such as was given by the Flin Flin Interests, is essential because a branch line is built to the Sherbrooke-dominion, in northern Manitoba, and Major Graham Bell, deputy minister of railways, is commenting on the project.

Lieut.-Col. A. L. Young, of Bourke, Man., who is commanding the 12th Canadian Cavalry, 12th Manitoba Dragoon, was elected president of the Canadian Cavalry Association for the coming year at the concluding session of the 12th annual convention at St. John, N.B.

Whether the wheat pools of the west are liable to income taxation will be the subject of a big case in the exchequer court this fall. The matter has long been in dispute, and while the tax has been paid, it has been under appeal. The exchequer Co-operative Company's case is to be a test, the decision in which will apply to all other pools, says the Ottawa Citizen.

The Hammer Wielder

"He's a tireless king and I hate to have to listen to him."

"Well, there is one thing you always can learn from listening to him."

"Yeah." That is now. What is it?"

"That's the matter with the old home town."

The wife: "This paper says that in parts of the East a good wife cooks fifteen shillings. Diagrachoff?"

Her husband: "Well, you good wife, worth fifteen shillings, isn't she?"

Mrs. L. Shepherd Tells How Cuticura Healed Her Son

"My boy became ill with measles on his fourth birthday. It broke out in red rash on his neck, face, arms and hands. It itched terribly and he would scratch himself until his hands were bloody. He could not hold his clothing in place. I tried various remedies, and some signs he would not keep on account of his condition. The trouble lasted several weeks. I began using Cuticura and after using one cake of Cuticura Soap and one box of Cuticura Ointment he was cured. (Signed) Mrs. L. Shepherd, Wilmett, Ont., Oct. 7, 1927."

New Horse Class For Royal

Shows Canada Is Still Interested in Horse-Breeding

Interest in horse-breeding is holding its own in Canada. In spite of the competition from mechanical transport, if one may judge by the new class added to the horse section at the Royal Winter Fair this year. In addition to the regular classes for Clydesdales, Percherons, Belgians, Shires, Hackneys, Thoroughbreds, Hackneys, French-Champagnes, Hackney Hunters or Saddle horses, and the draught and pony classes, a new class has been added for Suffolk, the well-known British horse breed. As for light horses, suitable for hunters, saddle horses and army remounts, are in keen demand, a class has been added for horses suitable as brood mares in the production of this type of horse. This class is open to mares, four years and over, owned in Canada and housed as being registered in the Canadian Hunter, Saddle and Light Horse Improvement Society. The mares will be judged on the basis of their qualification to produce high quality brood mares for the next generation. The sections of this class are for heavy weight mares, 1,200 pounds and under; medium weight mares, 1,100 pounds and under; and light weight mares, 1,000 pounds and under.

Canadian Wheat Pool

210,000,000 Bushels Of Wheat Marketed Through Pool Last Year

Members of the Canadian Wheat Pool, who number over 140,000 farmers in Western Canada, received \$1.42 net per bushel for their No. 1 Northern wheat in the 1927-28 crop year. Payments for lower grades were in proportion. Cheques for the final payment of 2 1/2 cents per bushel on all grades were sent out recently. A total of \$47,720,000 was distributed in this final payment to farmers in Manitoba, Saskatchewan and Alberta.

The final price of \$1.42 for No. 1 Northern wheat was a record. It had paid last year, \$1.45 in 1926, and \$1.46 in 1925, and \$1.01 paid by the Alberta Pool in 1924-25. The Canadian Wheat Pool which went into business in 1923, in 1925 and 1926 the market price was the highest since the war.

The Canadian Wheat Pool began operations in 1924. The first year \$1,000,000 bushels of wheat were marketed, the next year 18,700,000 bushels, and the third year 180,000,000 bushels. In 1927-28 crop year, the Canadian Wheat Pool has marketed about 210,000,000 bushels of wheat and about 1,000,000 bushels of other grain. The Pool has accumulated through deductions for elevators and commercial reserves over \$20,000,000 through its own handling facilities and is now in a position to handle the bulk of its own grain.

Members of the Pool sign a five year contract, and the Pool is now the Pool. The second contract year is just starting with a larger membership and acreage than the first.

Scientists Make Discovery

Return To New York With Mummies Found In North

With four mummies found in rude graves on the coast of a small island in the Aleutian group, near Kodiak, four walrus shot along the Alaska, a number of specimens of birds and mammals, and a collection of trophies of northern wild life, the Stoll-McCracken expedition from the American Museum of Natural History, are returning to New York City. The expedition, headed by Dr. Stoll, left four miles from Wrangell Island, where they were blocked by ice.

Harold McCracken said he could give no estimate of the age of the mummies brought back. This will be determined by scientific examination. The expedition found wonderful bird life. Some along the coast to rest on the vessel one hundred miles out at sea.

World Sugar Best Average

The world sugar best average in countries that have produced over 97 per cent of the world sugar best average during the past three years, is placed at 18.58. Below it is 18.11 per cent, above last year according to revised estimates of the United States Department of Agriculture from official sources.

State Foreman Of Storm

There is a relationship between static and storms. . . . There are storms, it is true, that are accompanied by little or no static. . . . There are other storms, accompanied by static, which are nevertheless distinct in type from the static storms. . . . The static storms are those to come from no definite direction. . . . As a static storm develops a storm and gives in advance of the arrival of the storm definite indication of the direction of approach.

Practicality Of Thrift

True, thrift is not a theory; it is a fact. It is a principle that is applied constantly in the practical problems of life. It brings immediate results. It is not a theory, it is a fact, not theoretical, stop forward.

It Is Never Too Late To Learn

It is never too late to learn; never too late to seek knowledge. One of the greatest mistakes of the world is to believe that knowledge is something that is placed over the tomb of John Richard Green, the historian. It is not. It is "No Dead Learning."

Diary Of Montreal Professor Shows Interesting Information

The diary of Jacques Rousseau of the biological laboratories of the University of Montreal, has just been published and discloses some of the discoveries of the expedition sent by the university to explore the Stik-Huk Mountains this summer. The section is believed to be only a portion of the North American continent which was not submerged by the glaciers during the ice age and for this reason has a flora and fauna all its own.

CHAPTER III.—Continued.

Janet laughed. "I will go now to give you the chance." With a playful flick of her whip toward Douglas, she was off like an arrow.

Donald turned to his friend. "I hope that you are satisfied now that you have made an ass out of me."

"Quite happy, old dear. I didn't find it a hard job."

Donald laughed. "I'll race you to the gym."

As the bout was to take place on Monday, this was to be the last day of training. The fans who had flocked to see Donald in his work-outs admitted that he had wonderful speed, but would be unable to stay the twenty rounds with the formidable Garriau. The verdict of the knowing ones was that it would take more than a snappy left hand to lift the laurels from the champion who possessed the virtue of the terrible punch.

To the boxer training is a trying ordeal. The daily grind of road-work, bag-punching, rope-skipping and pulley work becomes monotonous. The nerves become frayed, and if the weight has to be materially reduced the boxer develops a bad temper and is anything but a cheerful companion. As Donald prepared for bed that night he thought with relief that the morrow would be a day of rest. "I'll be glad when it's over," he mused. His meditations were interrupted by a rapping on the door. In answer to his invitation to come in, the door opened and a small man of unprepossessing appearance entered.

The visitor was indeed a most repulsive man, of uncertain age, and with skin of a sickly yellow. One eye was sightless, which he ascribed to an accident during a football game. Those familiar with his shady past averred that it was caused by the vigorous application of an adversary's thumb during a bar-room brawl.

"I'm Garriau's manager," he said importantly.

"What do you want?" demanded Donald shortly.

"Now, see here, Kid. We've got a dead clinch to cop de change. It's dis way. Youse is a amachour widout a chance in de world to beat de Slugger. Get me? Well, dere ain't a bit of sense of de Slugger beatin' you up for nuttin', so we frames de game. De heavy bettin' will be on de Slugger, so we fixes it for de Slugger to go 'till about de tent' round, so's to give de fans a run for dere money. We gets all de money dat we can beg, borrow and steal and puts it on you to win. We puts up a slam-bang fight. You can take de drop a couple of times, and den down goes de Slugger. De fans will just eat it up. De tent' round will find you stannin' toe to toe, den de last minute you sends home de fake sleep-punch. De boobs will tink it's on de square. Den in a mont' we gets a return fight and we pulls off de 'grudge stuff' and we packs de house. Of course, we have to win den, and all our money will be

placed on de Slugger. Dat means dat we cop de change twice. Get me?" His ugly lips parted in what he intended as an ingratiating smile. "You come up to de club tomorrow and we rehearse de whole t'ing. Get me?"

Donald's face turned pale with rage. "I 'get you, you damned little rat!" he rasped. Seizing the surprised Pursell by the collar, he jerked him to his feet, dragged him to the door, and threw him out with such force that he struck the wall with a thump and fell in a heap n the floor.

Pursell rose with a snarl that showed his yellow teeth. A look of bestial hate shot from the one gleaming orb. "We'll kill you Monday, you son of a bitch!" The air was filled with the vilest oburgations.

Closing the door, Donald walked to the windows and opened them wide, as though to rid the room of the air his visitor had breathed. "I never dreamed there was so much rottenness in the shape of a human being," he said disgustedly.

At the same hour, at the other side of the city, Douglas was also entertaining a visitor, but of a very different type. He had just entered his room when he heard his sister's voice.

"May I come in a minute, Doug?" Janet came to the point quickly. "Who is this Mr. McLean who was with you today?"

"Oh, that was—er—Donald McLean," he answered evasively.

"You know what I mean. Who is he? What is he, Where does he come from?"

"I'll look him up in Bradstreet's."

"Do be serious, Doug."

"Is it a serious matter, Sis?"

"I think he is interesting," she replied hesitatingly.

"So do I. I liked him the first time I saw him," said Douglas warmly.

"Well, you haven't answered 'my questions yet,' persisted Janet.

For all his fluency of speech Douglas was for the moment nonplussed. "Let's see—er—what was the first question?" He was sparring for time.

"Don't quibble, Doug. Where did you meet him?"

"I met him a long time ago through an intimate friend by the name of Pettray. McLean is his partner. Firm name McLean and Pettray."

"What is their business?"

"Oh—er—glove business."

There was an interval of silence. "I'm not a bad little liar," thought Douglas. "I wonder if she's finished."

He yawned strenuously and stretched his arms. "My! I'm sleepy," he said.

Janet rose slowly and moved toward the door.

"Are you going to ask him out some time?" she inquired.

"Sure thing!"

At the door she turned. "Will you let me know when he is coming?"

"Yes, dear."

"Good-night, Doug."

"Good-night, Sis."

Douglas stood for a while staring into nothingness. "I don't blame her," he said aloud. "I don't know anything about him, but I'll bet he is a real man."

CHAPTER IV.

The arena and the grand-stand were packed, the S.R.O. sign having been hung out at two o'clock. The cosmopolitan crowd sat in solid ranks, tier upon tier, from the select

ringside seats to the topmost rail. Judges, lawyers, doctors and bankers sat with labourers, miners, loggers, bartenders, and bootblacks. Men of the underworld sat side by side with men that make and administer our laws. There was a sprinkling of Japs, Chinamen and negroes. The turbaned Hindu made bright splashes of colour here and there in the vast sea of faces. Of class distinction there was none; all welded as one in the love of the boxing game.

The preliminaries were over, and the vast crowd had settled in their seats. Suddenly there was a stir, a craning of necks. Down the aisle on the west side of the arena came Donald, followed by Andy and the two seconds, the latter carrying buckets, sponges, towels and bottles. Donald wore a dark-coloured bathrobe thrown over his shoulders. There was a murmur of applause that swelled to a tumult as he clambered through the ropes. He seemed cool as Andy piloted him to the corner, but as he sat down and stretched out his long legs, he appeared ill at ease.

Although the crowd had given him a handsome welcome, prophecies were shouted down from the top seats that he would not last very long with the formidable champion. Donald was palpably nervous, as evidenced in the quick turning of his head and the shuffling of his feet. He looked slight and frail as he leaned forward in his chair, the black bathrobe accentuating the paleness of his face. A feeling of friendliness came over him as he gazed at the huge, strange crowd who were loudly predicting his defeat.

A well-known judge, wearing glasses and a big black hat, turned to his companion. "It's a hanged shame, Tom, to match that slim boy with a brute like Garriau."

The one addressed was one of the City's leading dentists and an ardent boxing fan. "Don't you believe it, Bill," he returned. "Just wait until you see this boy strip."

"Here he comes!"

A roar of applause greeted the champion as he came down the east aisle bowing right and left in answer to their plaudits. His dark, massive body seemed fairly to shine as he leaped to the ring with easy grace and stripped off his robe. He stood in his corner with his hands on the ropes, shuffling his feet in the resin, still smiling and glancing about the arena. Evidently he loved the limelight.

(To Be Continued.)

Predicts Crimeless World

Doyle Says Universe Will Be Revolutionized By Spiritualism

Sir Arthur Conan Doyle, famous for his stories and more recently prominent in support of spiritualism, visualized the coming of a practically crimeless world through the advancement of clairvoyance in an interview before his departure for South Africa.

He predicted that spiritualism would revolutionize the world "in every possible way" and that every police station will have a "Clairvoyant Sherlock Holmes" to track down criminals.

"We shall have a Clairvoyant in every police station," he said, "and there the criminal will be hunted down so that crime will become the most difficult, if not impossible, action to conceal. Clairvoyants will often be able to tell the actual perpetrator of the crime."

"If you give them a portion of the dress of the murdered person, they frequently will be able to throw themselves back to the time of the killing and get a kind of intimation of the circumstances and the method used by the criminal."

"Spiritualism is going to revolutionize the world in every way. It will get religion back to actual control with people and will revolutionize science, medicine and criminology."

"There are at least two doctors in the United States who are engaged entirely in casting out devils. Ordinary doctors could do nothing with the invasion, but these men persuade it to leave."

In conclusion he said he believed that less than five per cent. of the mediums of the world were frauds.

Dip the stopper of the mucilage bottle in a little melted paraffin before placing it in the bottle and it will never stick.

Some men go to church to hear the law laid down, and others are married.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Snippy—"Are these eggs fresh?" Grocery Boy—"The man just brought them from the country."

Snippy—"What country?"

Iron Ochre Discovery

Valuable Find Is Made In Northern Saskatchewan

Discovery of deposits of iron ochre estimated at 50,000 tons has been made near Makwal Lake, Saskatchewan, by William O. Neal, of Ker-robot, who has staked claims under the Dominion quartz mining regulations.

Makwal Lake is almost due north of St. Walburg, the end of the steel on the Canadian National Railways. It can be reached by automobile over rough trails. The ochre deposits were found just south of the southeast arm of the Makwal Lake and a rough estimate suggests that something like 50,000 tons of rich red iron ochre, varying in depth from three to five feet, are available.

Iron ochre has many uses. It is used extensively in the manufacture of paint, for coloring floors, for coloring sand lime brick, as a filler in the manufacture of rubber goods, paper, oilcloth, for coloring match heads and for coloring stucco.

Both the quality and quantity of the iron ochre deposits discovered at Makwal Lake are stated to warrant commercial development. Samples are now being tested for the Department of Railways, Labor and Industries to determine the various properties of the ochre.

ARE YOU AFRAID OF YOUR MEALS?

Proof That the Stomach Is Weak and Needs Toning Up

Are you one of the many sufferers who dread meal time? Hungry, and yet afraid to eat, because of the pains and discomforts that follow. When the stomach is out of order the whole system suffers, and as the blood becomes thin and watery it becomes increasingly difficult to correct the digestive disorder. There is no tonic for the stomach that is not a tonic for the whole body; thus a blood-building tonic such as Dr. Williams' Pink Pills, not only relieves indigestion, but adds to the general strength.

Mr. D. J. Shaw, Selkirk Road, P.E.I., has proved the value of Dr. Williams' Pink Pills in a severe case of indigestion and relates his experience for the benefit of other sufferers. He says: "I suffered from indigestion for a number of years. My case was so bad that words fail to describe it. My appetite was gone, constipation was present, and my nerves were all on edge. I could not sleep well at night, and the world was a dark spot for me. I tried a number of remedies, but without any benefit. Then Dr. Williams' Pink Pills were recommended, but without much faith, after so many failures, I decided to try them. After taking three boxes I noticed a change for the better. Then I got three boxes more and found I had a genuine remedy. I continued the treatment, took moderate exercise, could take plain food without suffering as formerly, and proved that these pills make good blood, and that this good blood will restore the stomach and nerves. Anyone suffering from stomach or nerve troubles will make no mistake in giving Dr. Williams' Pink Pills a fair trial."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont. Write today for a copy of the free booklet "What to Eat and How to Eat."

Important Grain Centre

To Vulcan, a town in Southern Alberta, belongs the distinction of receiving more bushels of grain direct from the farmers' wagons and trucks than any other point in the British Empire, if not in the world. There are nine local elevators, seven of which are of double capacity. Last year Vulcan shipped two and a quarter million bushels of grain, and with even greater crops in the district this year the indications are that the town will break its own record.

He: The mere fact that you refused me doesn't worry me. There are others.

She: That's why I refused you.

FARMER'S WIFE GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound through the Change of Life. It helps me and I cannot praise it too highly. I was troubled with heat flashes and my limbs were heavy so I could hardly walk to do my farm work. I saw in the newspapers your ad about the Vegetable Compound and thought to give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose."—Mrs. D. B. PETERS, Wilton, Ontario.

Canadian Books Popular

Are Creating Considerable Interest In England and Europe

Canadian literature is finding a commanding critical public in Europe, which means that Canadian men and women are producing something worth while in the field of letters, according to Hugh S. Eayrs, of Toronto, Canadian publisher, who visited Winnipeg recently in the course of a business trip through the West. Mr. Eayrs has just returned from England, and he states that a vivid interest is being taken in the Old Country in what Canadian men and women are writing.

"In the course of the last four years, the interest in Canadian literature in England, Germany and the Scandinavian countries has been most remarkable," said Mr. Eayrs. "This is in some measure attributable to the general interest which has been awakened in Canada through her increased prestige among the nations of the world, but it is predominantly a proof that we here are producing good work, for otherwise it certainly would not meet with European commendation."

The general reading public today has a higher standard of taste than twenty years ago, in the opinion of Mr. Eayrs. More non-fiction, and fiction of a better type, were constantly finding more favor with the general public. At the same time, the output of "cheap stuff" showed no sign of diminishing, he said, and there appeared to be a steady market for it.

Sound Beam Is Success

Men In Dirigible Distinctly Hear Program Of Music

Announcement is made by the Victor Talking Machine Company that the practicability of directing beam sound waves to a definite point had been demonstrated. Officers of the navy dirigible J-4 flying high above Camden, N.J., the announcement stated, distinctly heard the voices of Victor officials, a program of music and constant tone signals sent up to them by the recently developed super-directional horn mounted on the roof of a 10 storey building.

The new horn sent out a beam of sound which at all times was trained on the dirigible much as the beam from a giant searchlight would have been played on it.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

People Who Kill a Town

Those who oppose improvements. Those who distrust public-spirited men. Those who over-advertise their business. Those who show no hospitality to anyone. Those who hate to see others make money. Those who oppose every improvement that doesn't originate with themselves. Those who put on an extra-long face when a stranger talks of locating in their town. Those who oppose every public enterprise that does not appear of personal benefit to themselves.

Hungary Railways Install Radio

The Hungarian state railways, after investigation of a system employed by a Canadian railway, will install a wireless receiving system for the amusement of passengers on its trains. Individual head phones will be provided for each seat and passengers travelling, all classes, will be able to tune in upon a payment of a small charge.

Wife—When we married I thought you were a brave man. Other Half—So did everybody else.

Minard's Liniment—Popular for 50 years.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THERMAL CHANGES

You are fond of ice cream during the hot weather, and of iced drinks. But you noticed that upon your last visit to the soda fountain, a certain tooth pained momentarily as you were enjoying your favorite drink. Or, some toothsome sweet made it "sting", and also, you found it more comfortable to take your tea not quite so hot. But of course, it isn't bad enough to make a fuss over; a little care exercised and it will be alright again.

So you think. Now what is happening?

You have suspected, and rightly so, a small cavity.

While Nature saw fit to place nerve and blood tissues within the tooth, yet she protected them with the very hard outer covering, the enamel which was meant to remain intact throughout the life time.

But through no fault of Nature, disease has crept in and her plans yet baffled, for she has placed just within the enamel covering, tiny tissue filaments which communicate with nerve endings in the pulp chamber. These respond to thermal changes, sweets and acids, and instantly there is telegraphed to headquarters in the brain, the warning that something is wrong—just as when you put your finger on a red hot stove.

So forewarned, there is yet ample time to prevent more serious trouble if you would, but do your part and act promptly by having repairs made.

But do you?

Little Sermon On Thrift

Two Dollars Saved Weekly Means Hundred In Year

Could you use a hundred dollars next year at this time? Did you ever see anyone who couldn't? Then save two dollars every week from now on and you'll have it.

This is just a little sermon on thrift. When all the greatest thinkers and the biggest business men in the country teach thrift it seems pretty good evidence that there must be something to it.

Try saving two dollars every week. You won't miss it. If you don't put it in the bank you will spend it foolishly on some passing whim.

Two dollars nowadays couldn't buy you anything very much worth while, but added to some more dollars you will have a hundred before you know it. If you don't believe it try and find out.

Radium Rays Greatly Increased By Platinum

Effect Of Super Ray Ten Times Greater Is Claim

Alois Fischer, Vienna chemist, has succeeded in plating radium with platinum, greatly augmenting the ray strength which is reported to be ten times greater than that of radium alone. Dr. Heiner of the St. Joachimsthal institute announces the successful use of the new super ray in many cases of cancer and other malignant growths with no danger of burning and other risks as with simple radium. Also, an advantage of the new ray is that it requires a minimum of radium, making possible the general use of radium points where radium is too expensive.

It is said that human beings unconsciously associate a color with a particular sound. To the pedestrian a motor horn suggests both black and blue.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

"All things are relative," says a philosopher. Alas! no. The slower the driver's wits, the faster he goes.

Little Helps For This Week

"Not my will, but Thine be done."
—Luke xxii. 42.

Whatever my Father wills is best,—Delight or suffering, toil or rest,—Thine eye, and Thine alone, can see What I should have, and do, and be, I only ask that I may know The way which Thou wouldst have me go; That I, my will in Thine may lose; That what Thou, Lord, for me shalt choose, I, too, may choose.

—C. W. Harris.

There are no disappointments, it has been said, to those whose wills are bound up in the will of God.

—The Light Of the Conscience.

Even if a worm does turn he's just the same on the other side.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhoea; effective, too, for older children. Twenty-five million bottles were bought last year.

WATERBURY'S CASTORIA

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

ENCOURAGING CRIME

Carelessness and stupidity on the
part of the victims is responsible for
much of the thieving and swindling
which has reached such alarming
proportions in this country.

Some of the specific weaknesses of
our "easy marks" are pointed out by
a leading criminologist, who enu-
merates cashing checks for strangers,
leaving automobiles unprotected,
carrying unnecessarily large sums of
money, buying real estate without
seeing it or investigating its title,
investing in stocks and schemes
without consulting a banker, trying
to beat gamblers at their own games,
lending money and extending credit
to persons of doubtful honesty, and
so on.

If people fail to exercise any cau-
tion whatever in these matters, no
law or official action can effectively
protect them from thieves, swindlers
and dead beats.

While the punishment of criminals
often occurs, it usually happens too
late to do the victim any good, so far
as recovering his money or property
is concerned.

Honest people have it in their own
power to greatly reduce losses from
the above mentioned causes, by
merely exercising ordinary good
judgment, instead of indulging in
reckless practices which encourage
crime.

WOMEN'S POULTRY POOL

Canada has long been noted for
the extent and success of its farm-
ers' cooperative marketing enter-
prises, which have materially aided
in the solution of at least a portion
of its agricultural problems.

The cooperative movement has at-
tracted the strong support of farm
women in many parts of the Domni-
on, an outstanding example of their
activities in this line being the Sas-
katchewan egg and poultry pool, with
a membership of 18,000, composed
almost entirely of farmers' wives,
with four women on its board of di-
rectors.

Last year this association handled
70 per cent of the eggs marketed in
the province and 86 per cent of those
exported, its total volume of business
amounting to \$721,329.

This showing is all the more re-
markable from the fact that the
larger portion of the products comes
not from exclusive poultry farms,
but from those in which poultry rais-
ing is only a side line to grain pro-
duction.

Whenever the cooperative market-
ing of agricultural products is ser-
iously attempted, the active support
of farm women should be diligently
sought. The Saskatchewan poultry
pool is a splendid example of what
they can accomplish through their
attitude for intelligent cooperative
effort.

FOR SIX FOOTERS

A new club of a most exclusive na-
ture is being organized throughout
Canada. It is the Daddy Long Legs
Club formed in 1926 and the mem-
bership is restricted to men at least
six feet tall. It has many flourishing
branches in America, and the other
evening a thousand six-footers met
in Toronto, to form a club there. The
purpose of the club is to make the
world safe for the long guys. Many
things have to be set right. Hotel
beds must be made longer, sheets
and blankets never cover the situa-
tion. Pullman berths demand that an
oversize man fold up like a jackknife.
Awnings crack their skulls. When
the local club is formed we have sev-
eral youthful eligibles around this
district.

BUYING AT HOME

Do buy at home editorials have
effect? Should the responsibility
for increased buying out of town
be placed on the newspaper? We
submit it should not be. The mer-
chants and business men, from
our experience, first practised this
little habit of buying out of town.
Now it has grown to huge propor-
tions. It is not the newspaper's
duty to flail its readers every once
in a while because they buy out of
town. The merchants and business
men should use space to do that.

Here and There

(144)

An effort is being made to es-
tablish an airport at Banff, Alberta.
Government officials have inspected
a site near the present golf links
and the prospect that a field will be
prepared within the next year is
bright.

A further supply of airplanes and
airplane parts arrived in Montreal
recently when the Canadian Pacific
freighter "Beaverford" brought two
De Havilland Moth planes, one case
of wings and two cases of spare
parts.

A call for tenders for a large
elevator with a capacity of 1,500,000
bushels has been sent out by the
Saint John Harbor Commission.
The new structure is to be erected
on the Colwell Fuel Company's site,
in West Saint John, the work of
construction to be got under way
as soon as possible.

A Cadillac sedan equipped with
rubber insulated steel flanged
wheels has been specially equipped
by the Angus Shops of the Canadian
Pacific Railway at Montreal for the
use of the engineering department
of that company on inspection
trips. The machine has an extra
braking system operated by the
steering wheel and can make as
great a speed on the rails as it
can on the highway. Over seventy
miles an hour was made on a trial
run.

A big black bear tried to stop a
Canadian Pacific freight train the
other day near Arndale station in
Northern Frontenac county in On-
tario, and when the encounter was
over there was not enough of the
bear left to make a pair of mitts.
Bruni evidently wandered on to the
tracks during the night and was
blinded by the glare of the head-
light. Black bears are found
throughout Eastern Canada, but
are not often seen, except during
the berry season, as they are night
prowlers.

Addressing the Board of Trade of
Vancouver, recently, E. W. Beatty,
Chairman and President of the Can-
adian Pacific Railway, stated that
present prosperity in Canada is
clearly indicated by four main fac-
tors: Record of railway car load-
ings (showing the volume of busi-
ness), employment returns, reports
of financial houses, and building
construction. These indices were
of special value, he remarked, be-
cause of the wide range of activity
which they reflect. The gross earn-
ings of the company, he added,
had been greatly decreased, how-
ever, by reduced freight rates.

A unique piece of railway equip-
ment, a dynamometer car, has been
constructed by the Angus shops for
the Canadian Pacific Railway. The
apparatus is intended to test the
efficiency of locomotives at various
speeds and is placed between the
tender and the train during opera-
tion. The forces exerted on the
coupler of the car are transmitted
hydraulically to an instrument
known as a chronograph, which
records upon a moving sheet of
paper. It is stronger by far than
any of its predecessors and is said
to be the finest car of its kind on
the continent. One of its first
duties will be the testing of the
new "3100" passenger locomotive of
the C. P. R., the largest engine in
the British Empire.

Why make the editor the squint-
ing. The mail order houses work to a
plan. New catalogs are scattered
over the country and mid-winter sales
are conducted to get what cash may
have been left over from Christmas.
Usually the mail order houses beat
the merchants to the January Clear-
ance sales. Then again in April the
catalog houses stage a spring sale,
this being a mid-season time when the
merchants are not advertising heavily.
Again in July the merchants are ad-
vertising light in most places and again
the mail order fellows get in their
work.

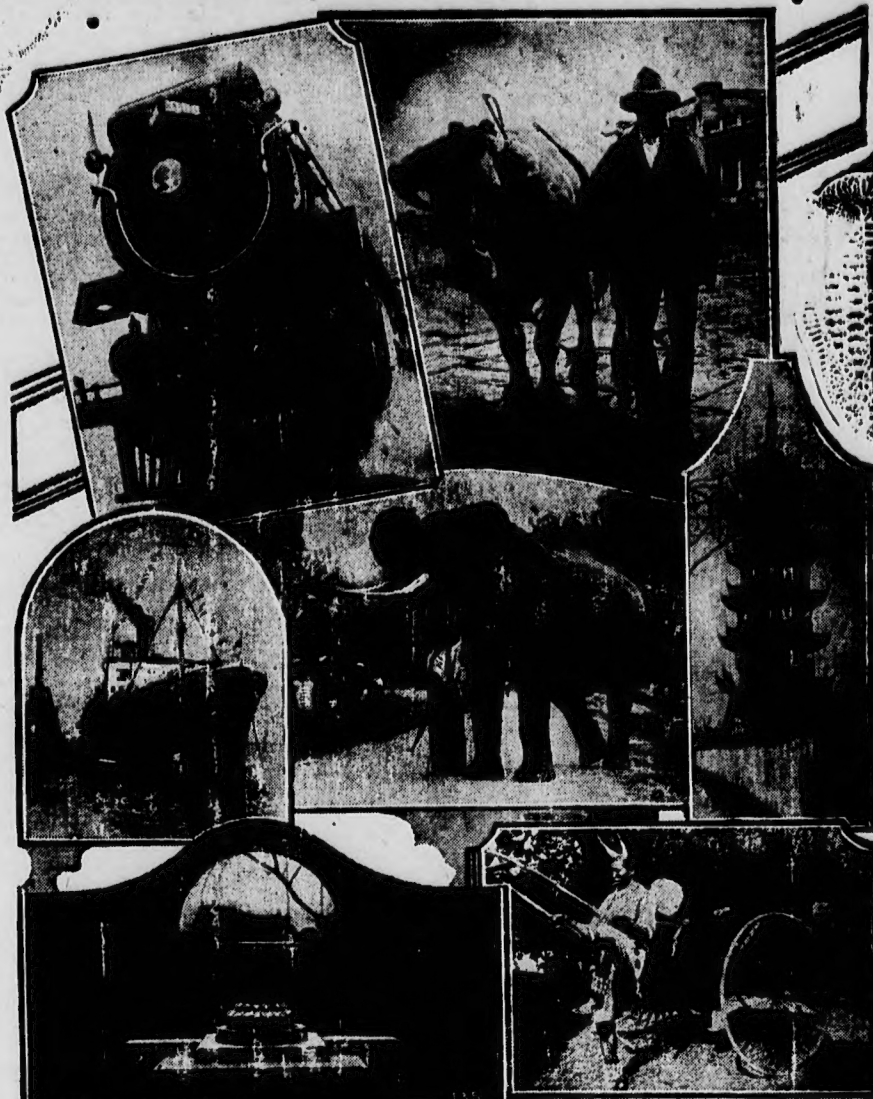

During the fall most catalog houses
go easy on advertising. The local
merchants are going after holiday busi-
ness with vengeance at that time
of the year and the mail order houses
know that it would be a waste of
money to try and combat that kind
of competition. However, as soon
as the Christmas drive is over, the
catalog house again comes out in the
open, because it knows the merchant
intends to rest from advertising for
awhile.

If merchants could only learn to
advertise steadily, even though they
have to cut down the size of their
space some time and if they would
constantly keep their own name
before the people of their com-
munity, they would give the mail
order houses real competition and
would do more good than all the "Buy
at Home" editorials that might be
written.

A lady dropped into an emporium
to buy a birthday present for her hus-
band. She had not the faintest idea
what she should buy. Appealingly
she asked the salesman what he could
suggest. "He doesn't smoke, nor
drink, nor play cards" she told him.
"Well" asked the salesman, after
much deep thought, "Is he fond of
fancy work?"

A Scotman at Niagara Falls met

Composing Room Divulges Secrets

This cut above was reproduced from a collection of photographs plus a little art work, and it came
about this way. There was a need for an illustration to brighten and balance the page. So we looked
through the files. The photograph of the new Canadian Pacific engine came to light first, but, while
it illustrates the largest passenger engine in the British Empire, our readers already knew all about
it. Put it on one side! Then we saw the picture of the ox which is engaged in shunting freight cars
at Trieste. This we thought we could tie up to the engine in some way, but when we saw the photo-
graph of the elephant at Kandy, we thought that it would be much better and easier to write a feature
on, say, "power" or "World transport!" The African Zulu with the Ricksha would have helped a
story of this nature, but when we saw the beautiful curves of the Lungwa Pagoda and the graceful
lines of the Moon Arch in the garden of the Jade Tree Studio at Shanghai we thought that perhaps we
could make an appeal of sorts to the cultural side of our readers. But the office boy was very keen
on the locomotives, the make-up man thought he could design a better lay-out with just the animals,
and our fair-haired stenographer considered the architecture more artistic.

We compromised by deciding to make a three-column instead of a two-column lay-out and using
them all. What then remained was to tie them up in some way, so we got out our best-looking photo-
graph of the "Empress of France," and—there you have a complete short story. One gets aboard a
Canadian Pacific train first and at New York boards a Canadian Pacific steamship for the ports and
nights of the world. The "Empress of France" doesn't really belong to the set, because this year she
will not make a cruise, but, here she is last year at Rio de Janeiro. The "Empress" is replaced in
cruise service by a "Duchess." Not that this makes a great deal of difference to your editor, but
there are many, readers of this page too, who will spend Christmas in the Holy Land, and cherry-
blossom time in Japan. They will tour the West Indies in comfort in January or February. They
will spend the winter in luxury travelling round South America and South Africa, round the world or
round the Mediterranean. They have shown us their booklets, and before long they will be showing us their tan and their souvenirs.

his friend Jack, enjoying the beauties
of the place for the first time, and
when asked what he was doing there
replied: "I am on my honeymoon."
"And where is your wife?" "Oh,
she did not need to come, she has
been here before."

Has Unique Plan To Increase Productivity Of Western Soil

Toronto.—The rehabilitation of the soil of the western provinces through the use of nitrate fertilizer developed by electricity, possibly in Manitoba, is envisaged by Prof. J. Watson Bain, head of the Chemical Engineering branch of the faculty of applied science, University of Toronto.

Addressing the Toronto Electric Club, Prof. Bain said that by passing the component parts of water and air through a simple chemical process, ammonium nitrate, the best and most concentrated fertilizer known, could be produced in unlimited quantities. By the fusion of rock phosphate and coke a compound of phosphorous used in the fertilizing process would result.

"I believe," he said, "that before many years pass we will have to supply fertilizer to the west. They have been 'mining' the ground there in the production of wheat. In Germany, to show how important fertilizers are to Canada, it is not uncommon to produce forty bushels of wheat to the acre. In Ontario the average production is twelve bushels."

Before many years, Prof. Bain believed, a great plant would be installed in some of the northern rivers running into Hudson Bay, where electric power could be developed. Water would be taken from the river to obtain its hydrogen content and nitrogen would be removed from the air. The two could be united to form the great basic element of plant food. He was of the opinion rock phosphate could be found in the same area and that coke could be freighted in to complete the manufacture of phosphorous in the huge electric furnaces which would derive their heating power from the harnessed waters of the river.

In both processes, Prof. Bain believed, electricity would be used for the heat necessary in breaking up the elements of the mediums used. "It will be a contribution of electric engineering," he said. "It is a field in which we can join hands to produce for the benefit of the country at large."

Arms Plea a Failure

German Communists Did Not Secure Enough Signatures To Petition

Berlin.—An attempt by Communists to hold a nation-wide plebiscite on a law proposed by them saying "it is forbidden to build a battle cruiser of any kind" has failed.

About 2,000,000 Germans signed the Communist petition for a plebiscite on the subject. The constitution prescribes that one-tenth of the qualified voters, or about 4,000,000 persons, must sign a demand for a referendum and therefore no plebiscite will be held.

C.P.R. Head Celebrates Birthday

Montreal.—E. W. Beatty, president of the Canadian Pacific Railway, has celebrated his 51st birthday. Mr. Beatty was born in Thorold, Ont., on October 16, 1877. He entered the service of the company of which he is now chairman and president in 1901, as assistant to the general counsel. In 1914, he became vice-president, and in 1918, president, succeeding to the post made vacant by the death of Lord Shaughnessy.

Naval Papers Recovered

London, Eng.—Newspaper reports of the loss of naval documents "of very great importance" between Marlow-on-the-Thames and in Chatham Royal naval barracks have proved an exaggeration. It was learned at the Admiralty that the papers in question were of no importance and have been recovered.

Appeal Not Withdrawn

Toronto, Ont.—Stating that neither he nor Mr. Wilson had sanctioned the withdrawal of the appeal, W. T. R. Preston stated that his and Wilson's appeal against the verdict of the trial jury at Cobourg, in the libel action brought by Sir Arthur Currie, was being replaced on the list for hearing.

Liquor Revenue Helps

Toronto.—The Evening Telegram says that only the sale of \$8,000,000 worth of liquor has saved the Ontario government from facing a deficit on the year's operations, and that a considerable portion of the liquor revenue will go to balance the expected \$2,000,000 shrinkage in the succession duties taxes.

N. W. U. 1756

Heroism At Sea

Harrowing Tale Of Fire Aboard Ship Is Related

Vancouver.—With seven of her crew painfully burned and scalded, the Blue Star Line steamship, "Trojan Star," Capt. G. A. Griffiths, arrived here with a harrowing story of fire on board while the vessel was off the California coast on the night of October 12.

William P. Tension, Hull, Eng., fireman aboard the ship, was burned to death and his body buried at sea. The fire broke out at 6:20 p.m., October 12, when an oil jet burst in the stokehold, trapping eight men of the engine room force in a wall of flame that sprang up in an instant.

Second Engineer Sydney P. Houston and Fireman James, according to the ship's officers, were chiefly responsible for the safety of the engine room crew.

Seeing that the way to safety on deck was barred, Houston led the men into the bilges under the boiler. The flames roared above them and for three hours and thirty minutes they lay there in oil and water with the plates growing hotter and the water in which they lay steadily approaching the boiling point. James, by his cheery conduct and singing of songs, aided his comrades while awaiting rescue. Tension went temporarily insane from the heat and rushed back to the engine room again, where he succumbed.

Only an act of providence stopped the flames. A big steam pipe in the stokehold burst, pouring a dense cloud of steam into the compartment, finally smothering the fire and permitting the deck crew to reach the imprisoned engine room crew, who were smeared from head to foot with fuel oil, soaked in water, blistered and partly gassed.

They are all recovering.

Radio Station Opened

Canada's Largest Broadcasting Station Operating At Winnipeg

Winnipeg, Man.—Official opening of the new broadcasting station of the Manitoba Telephone System, the largest in Canada, took place at the Sherbrooke street studio.

Hon. W. R. Clubb, Minister of Telephones, pressed a button which immediately set in operation the big 5,000-20,000 watt transmitter situated at the Agricultural College, eight miles distant.

The power of the new station is more than twenty times that of the old plant.

The program included an address by Premier John Bracken and a band concert by the Winnipeg Salvation Army Citadel Band, under the direction of Bandmaster H. G. Merritt. The official wave length of the station will be 384.4 metres and 200 kilo cycles.

Wins Mayoralty Contest

W. H. Malkin Is Elected Mayor Of Greater Vancouver

Vancouver.—With a majority of 1,666 votes, W. H. Malkin, pioneer wholesale merchant, was elected first mayor of the amalgamated city of Greater Vancouver, comprising Vancouver City, Point Grey, and South Vancouver municipality, in the civic elections. Mr. Malkin defeated Mayor Louis D. Taylor, six years chief magistrate of Vancouver.

The vote in the thirty-nine polls was: Malkin, 18,733; Taylor, 17,067.

Louis Rubinowitz another mayoralty candidate was never a factor in the contest. He polled but 207 votes. Mr. Malkin's term of office will be two years.

Pass Radio Exams

Western Candidates Obtained Certificates Of Proficiency In Telegraphy

Ottawa.—The radio branch of the Department of Marine and Fisheries announce that 18 candidates were examined during the month of September. The following Western candidates were successful and obtained certificates of proficiency in radio telegraphy: Commercial, first class—M. E. D. Jacobson, and J. H. Stow, of Vancouver.

The following have been further examined and have had their existing certificates endorsed for additional equipment:—C. Blacklock, Vancouver; A. R. Bock, and W. J. Pickering, Regina, Sask.

Workman Buried In Concrete

Two Men Victims Of Accident At Cleveland

Cleveland, Ohio.—The bodies of two workmen who were buried alive in a 105 foot hole under a fifty ton fall of fresh cement at the Union Deposit site here, were cut from the hardened mixture after a desperate 12-hour struggle.

The two men were Patrick Toolis, 29, and Patrick Cleary, 27, both of Cleveland.

Tools and Cleary were working at the bottom of the hole in which concrete was to be poured. A few feet away was another pit into which concrete had been poured a short time before.

Under the pressure of the tons of concrete, the retaining walls of the second gave way. The concrete tore through four feet of earth and poured down upon the two victims.

LOOK FOR BIG GOLD RUSH IN NORTH ONTARIO

Winnipeg, Man.—Valuable gold discoveries made during the past summer and this fall at Crowe River by the Northern Aerial Mineral Exploration Company probably will bring a stampede of prospectors rivaling that to Red Lake a few years ago, Capt. H. A. Oakes, operating manager of the company, states. Crowe River is near the Patricia mining field in Northern Ontario.

At least 200 prospectors are awaiting their chances to make Crowe River before the freeze-up, and scores are intending to be there in the dead of winter. The more fortunate will go by airplane, but the majority will take the next best means of getting to their destination—by canoe or dog team.

"We have every proof that the Crowe Lake strike is a good one," Capt. Oakes stated, "and our groundmen, including engineers and other technical experts will be on the scene, possibly the entire winter."

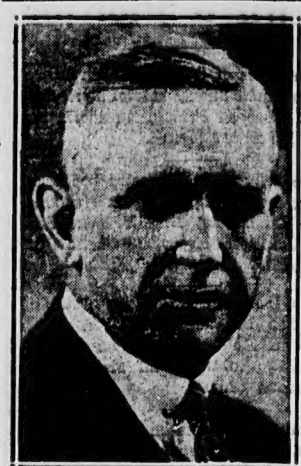

The company will continue to carry on operations this winter by plane, although this branch of its service will not function in any other territory but Ontario.

The machines have been brought to Winnipeg for housing during the winter, and four more Fokkers and Fairchilds will be flown here by the end of the week. Captain Oakes and Al Chesman, chief pilot, brought two of them here the beginning of the week.

The plane that sunk at Chesterfield Inlet on the Hudson Bay recently has been salvaged and will be shipped here in about another month. It will have to remain at Churchill until freeze-up as the only means of transportation to the railway is by tractor. The crew will come also.

All planes which operate this winter would be equipped with skis. Captain Oakes said, as there would not be facilities for machines with wheels.

TO ENCOURAGE SETTLEMENT

J. N. K. MACALISTER

Assistant Commissioner, Department of Colonization and Development, Canadian Pacific Railway who says that the newly organized Colonization Finance Corporation of Canada Limited is the most important step ever taken jointly by Canadian private land-owning bodies in the effort to encourage agricultural settlement on a sound basis. Millions of acres are involved and the scheme is being developed in conjunction with the Canada Colonization Association, of which Mr. Macalister is a director.

Take Up Residence In London

Mr. and Mrs. Tunney Reported To Have Leased House In Mayfair

London.—Mr. and Mrs. James Joseph Tunney, according to report have taken the lease for a year of a house in the Mayfair quarter of London where after their honeymoon it is said they intend to form a literary salon.

Harry Freston, English sportsman and friend of the retired world heavyweight champion, states that he still expects to see Gene enter the ring again. He said that he had told Tunney that there remained one record for him to break, referring to the occasion three years ago when Jack Dempsey fought four English heavyweights in succession at a boxing tournament.

Memorial Day For Celebrated Explorer

Norwegian Government Will Honor Memory Of Roald Amundsen

Oslo, Norway.—The anniversary of the discovery of the South Pole by Roald Amundsen, in 1911, will be celebrated on December 14, by the Norwegian government as a memorial day for the famous explorer who died in an effort to bring relief to the lost expedition of General Noble.

Besides the extensive celebration in Norway, Norwegians all over the world will be informed of their government's decision to enable them arrange other commemoratives.

HIGH COMMISSIONER FROM BRITAIN

This photographic portrait of Sir William Clark, first high commissioner from Great Britain to Canada, who arrived recently at Ottawa, was made this summer in London, by Minna Keene, Fellow of the Royal Photographic Society. Mrs. Keene, who lives in Oakville, has done photographic portraits of many distinguished people in America, Europe and Africa, and has also made photographic studies of national types in many parts of the world.

New Daily For The Pas

Expect Publication Will Start Early In December

Calgary.—It is expected that the Northern Star, the proposed new daily for The Pas, for which a Canadian Press franchise has been granted, will commence publication early in December. A building is now in course of construction there to house the editorial, business and printing departments. G. M. Bell, president of the Calgary Alberta Company, is president of the new company, which has been formed to undertake the enterprise, and S. L. Cross, Regina, is vice-president. Associated with them will be P. C. Galbraith, at present news editor of the Winnipeg Tribune, as business manager, and Fred Johnson, mining editor of the Winnipeg Tribune, as managing editor.

B.C. Settlement Plan Has Been Exaggerated

Reports Being Circulated Are Causing Government Some Trouble

Victoria.—Letters are pouring into the Government offices here from people who would avail themselves of the land settlement offer recently announced by Premier Tolmie. However, many reports concerning how far British Columbia will go to aid the settler have been exaggerated and these are causing trouble.

Some reports stated that the government would give 40 acres of cleared land, a log cabin and \$2,000 in cash, but the Premier denied this in a statement issued.

Premier Attends Luncheon

Speaks To Delegates Of Empire Parliamentary Association On Return To London

London, Eng.—Premier Mackenzie King, of Canada, attended the luncheon tendered by the British Government to the delegates of the Empire Parliamentary Association who have just returned from their tour of Canada, and are about to disembark, some of them to return to distant parts of the Empire.

Premier King said he was sure the delegation while in Canada had learned how Canadians had the greatest possible pride in British traditions and institutions.

ALBERTA PLANS TO AID SETTLERS FROM BRITAIN

Edmonton.—Closer co-operation between the Provincial and Dominion Governments in regard to future immigration work was decided upon at a conference held between Hon. Robert Forke, Federal Minister of Immigration and Colonization, and Premier Brownlee and members of his cabinet.

There will probably result from the conference in the way of definite forward moves, an agreement to bring out next year a number of British women for domestic help, the establishment of training schools in the old country for prospective emigrants to Canada, and the erection of 20 or more cottages in the Lethbridge irrigation district for newly arrived settlers.

All the new policies thus tentatively decided upon will be of a tripartite nature, as between the Alberta, Dominion and British governments. The cost of the various projects will be shared by the three parties, which will in this way be closely linked together in the promotion of selected British immigration to this province.

According to Mr. Forke's information, a considerable number of British women immigrants can be secured as domestic help and it is proposed to give this phase of the question some definite trial during the coming years. The training schools also proposed as a matter of future policy will be established in both England and Scotland. They will be for the purpose of familiarizing likely immigrants to Canada with actual living and farming conditions in this country and will be closely supervised. A great deal can be done in this way, in Mr. Forke's opinion, to give prospective settlers a measure of experience and so to ensure their ultimate success.

The Provincial Government will now consider as part of its future program the building of 20 cottages on Lethbridge irrigated farms in which farmers newly brought out under the tripartite scheme may be settled.

This will be with a view of getting a regulated flow of settlement. Mr. Forke's visit was part of his itinerary on a Western tour in which he is consulting with all the provincial governments.

Graceful Tribute Is Paid To Canada By U. S. Speaker

Fuel Tank Found At Sea

Believed To Be From Plane In Which Amundsen Party Perished

Copenhagen.—A fuel tank, believed to have belonged to the French Latham plane, in which Roald Amundsen and five companions are presumed to have perished in an attempt to reach survivors of the ill-fated dirigible Italia, has been found.

The motor boat Kelf arrived at Waldermund with the tank, having found it at latitude 64.52 north, longitude 8.50 east, about 200 miles north of Christiansand, Norway. It was capable of holding 600 litres of fuel but contained only 30.

Oslo, Norway.—Careful inspection of a fuel tank picked up by the motor boat Kelf at Waldermund has revealed two lines written in pencil. The writing, however, is almost illegible because of the action of the sea.

Only the word "Accle—20 X 1" could be deciphered. It is believed that the word "accle" might stand for the French equivalent for accident and that the figures might represent the position of the French Latham plane in which Roald Amundsen and five companions are thought to have perished.

The tank was dented, but otherwise was in good condition.

Scores Liquor Control

Dominion-Wide Temperance Convention Held At Ottawa

Ottawa, Ont.—Reports submitted at the Dominion-wide temperance convention here asserted that the advent of the provincial governments into the field of sale and control of liquor had brought in its wake moral, social, and legislative retrogression. It was also charged that the sale of beer by the glass has revived the old saloon, in a camouflaged form, with crime increasing and other attendant evils.

The convention was held under the auspices of the Canadian Temperance Federation. Delegates were in attendance from all parts of the Dominion armed with reports and documents relating to the liquor situation in their respective provinces. James Hales, K.C., of Toronto, presided.

SUNDAY SCHOOL LESSON

OCTOBER 28

PAUL'S LAST JOURNEY TO JERUSALEM

Golden Text: "Remember the words of the Lord Jesus, that He Himself said, 'It is more blessed to give than to receive.'"—Acts 20:35.

Lesson: Acts 20:1-21:17; 2 Corinthians 11:28.

Devotional Reading: John 10:7-17.

Explanations and Comments

Paul Reviews His Ministry Among the Ephesians, Acts 20:17-21.—Paul had sailed past Ephesus, for he could not take the time to stop there or elsewhere in the province of Asia, as he was very desirous of being in Jerusalem for the day of Pentecost. But when he reached Miletus he sent a messenger to the elders (or presbyters, Revised Version) at Ephesus, bidding them come to Miletus to say farewell. In the churches he founded Paul had established the offices of deacons and elders after the model of the Jewish synagogue. Paul speaks sometimes of elders and sometimes of bishops using the latter term, which means literally overseers, or superintendents, in churches where there was a large Gentile element.

"Ye yourselves know, from the first day that I set foot in Asia, after what manner I was with you all the time"—thus Paul began his address to the Ephesian elders upon their arrival. The first day that Paul set foot in Asia is recorded in Acts 18:7, but his first preaching there was later, Acts 18:19. He came to Ephesus again on his last missionary journey, Acts 19. "The manner of his life" he proceeds to tell in the next three verses.

Paul first reminded them how faithfully and how humbly he had served the Lord while his heart was filled with anxiety for them and his own life was threatened by the plots of the Jews (see 1 Cor. 15:32; 2 Cor. 1:8-10); and how he had told them all things profitable for them to know, and had taught them in public and in private the essentials of religion, repentance toward God and faith toward Christ. Fear of giving offence to the Jews, and therefore of endangering his own life had not prevented him from preaching a crucified Christ and the gospel for Gentiles as well as for Jews.

"Repentance toward God and faith toward our Lord Jesus Christ": there is no other way but by repentance and faith. First, realise your sins; second, confess to Jesus Christ; and third, live as you think you ought to live."

New York.—"The country in which you were born is rapidly coming of age; you have no reason to be ashamed of it, and it considers you its liaison officers in the great country of your adoption." These were the closing words addressed by the Hon. Justice E. Fabre Surveyor to the semi-annual gathering of the Canadian Society in New York recently.

Justice Surveyor spoke to a distinguished group which included Sir John Gloster Armstrong, British consul general at New York, and Mr. Frederick Hudd, the Canadian trade commissioner here. His address was a survey of Canadian progress toward autonomy and nationhood.

The effect of this change, he said, is to bring Canada closer to Britain than ever. The Canadians would never waver in their fidelity to the British crown.

Justice Surveyor sketched the gradual accession to Canada, of broadened jurisdiction in her courts of law and increase in her powers in dealing with other nations of the world.

"Canada's election to the council of the League of Nations," he said, "removed all doubt as to the place it holds at Geneva."

Will Be Responsible To Canadian Doctor

British Doctors To Aid In Inspection Of Emigrants

London, Eng.—A roster of 350 British doctors is being formed for medical inspection of emigrants to Canada. Canadian doctors will be retained, each doctor being in charge of a zone and British doctors within each zone will be responsible to the Canadian doctor. Miss Franklin, secretary of the Women's Overseas Settlement Society, says her society will welcome establishment of domestic training schools for women migrating to Canada. Sir George Magnum, Church of England council for Empire Settlement, says domestic training schools will be a great benefit to the migration movement.

Offered Appointment

Sir Lomer Gouin May Accept Lieutenant-Governorship Of Quebec

Ottawa.—The Citizen publishes the following: "Although he has not officially accepted, it is expected here that Sir Lomer Gouin will respond to the offer of the lieutenant-governorship of Quebec when it becomes vacant next January on the expiration of the term of Governor Perceval. Many months ago the prime minister wrote a letter to the erstwhile minister of justice, expressing the view that he should round off his career by accepting the lieutenant-governorship of the province."

Typhus In the Ukraine

London, Eng.—An Exchange Telegraph despatch from Riga reported 10,000 cases of typhus in the Ukraine, with many deaths. Schools and moving picture houses were closed. Provisions and medicine were needed urgently, the despatch said.

Returns To California

Riverside, Cal.—Jessie Clark, sister of Sanford Clark, 15-year-old accuser of her uncle, Gordon Stewart Northcott, alleged killer of boys on his Riverside chicken ranch, has arrived here from Canada.

House Shortage In Calgary

Calgary, Alta.—Although 300 new houses have been erected in Calgary this year, a serious shortage is reported. The population of the public schools showed an increase of 800 over last year on re-opening.

Air Phones A Success

London, Eng.—The Cross Channel Air Company announces that successful experiments had been made whereby passengers called their city business houses by wireless telephone while flying as high as 12,000 feet.

Radio Popular In China

Peking.—The Peking radio broadcasting station announces that it now has 2,830 paid subscribers, gained in less than one year. Three women announcers are on the staff of the station.

Coal tar, from which dyes are made, is the essence of the plant life that flourished millions of years ago.

Long legs and body saved Edward West, 6 feet tall and 69 years old, when he fell into a well at Colchester, Conn. The well was 20 feet deep, with 5 feet of water. West fell head up but sank in the mud until the water covered his mouth and almost shut off breathing through his nose. He was rescued after tiptoeing for an hour. A man in Foggia, Italy, claims he has discovered a copy of the gospel by Joseph, disciple of Christ, which was known to exist in the early Christian times.

COMING EVENTS

The ladies of the Gleichen United Church Circle announce their annual Xmas. sale of work will be held Saturday, Dec. 1st.

The Cluny Women's Institute are giving a dance for the benefit of the Red Cross on Friday, Nov. 16th, in the Cluny Hall, and also will hold their annual bazaar and chicken supper on Saturday Dec. 1st.

On Thurs. Nov. 28, I. D. Macdougall, M.P., of Nova Scotia, will address the Gleichen Canadian Club on the history and development of the Maritime, discussing the industrial and mining situations at the present.

The ladies of the United Church Circle will serve a Thanksgiving Supper in the Community Hall on Friday evening, Nov. 2nd. After supper the Rev. Dickson of Knox United Church, Calgary, will deliver a lecture entitled

"Canada and Canadians from the view point of a Scotaman"

Arrangements are being made to have Bishop Sherman of Calgary deliver an address under the auspices of the Gleichen Canadian Club and the Chamber of Commerce on Monday, Nov. 26th, at a luncheon.

By the appearance of The Call's "Coming Events" there will be plenty of entertainment for all from now on.

Town & District

The ladies of St. Ictor's Church are holding their annual sale of work and whist drive on Friday, November 23, to which all are invited.

The Jolly Boys Orchestra has been engaged for a dance in the Meadowbrook Community Hall for next Friday, Oct. 26th. Everybody is invited to attend.

The ladies of the Cluny Catholic Women's League will give a whist party in the Cluny Hall on Friday, Oct. 26th, to which all are invited. Admission \$1.00.

Cluny United Church ladies are giving a chicken supper in the Cluny Sunday School building on Saturday, October 27th from 5:30 p.m. Adults 75 cents and children 25 cents. Everybody welcome.

Mrs. H. H. Hall, wife of our popular C. P. R. agent, underwent an operation last week at the Bassano hospital and her numerous friends are glad to learn she is improving nicely according to latest reports.

The many little friends of Arthur Clifford will be pleased to learn that the latest report is he is improving nicely. Arthur has been ill since midsummer. While at Banff he was taken ill and developed scarlet fever, recovering from this complications set in and he has undergone two operations at the Banff hospital.

Dr. and Mrs. Armstrong left Gleichen last Thursday for the east and will make their home at Schreiber, Ont. They were accompanied by their two sons. During their short residence in Gleichen they made a number of friends, who regret their departure and will be glad to greet them when ever they come west again.

The Alberta Government on Tuesday started the work of excavation for the much-needed sewer from Eventide Home to connect with the Gleichen town sewer. A gasoline shovel started at the United Church corner and working day and night are making great headway. The pipe has arrived and it should not take long in completing the work. This has been greatly needed and shows what can be accomplished in a short while when town and country co-operate.

While employed on Monday on the erection of an Indian house on the Blackfoot reserve by T. W. Scott the scaffolding blew down and four men fell about fourteen feet. Messrs. McDonald, Sauve and Read were unconscious for a short time and E. Woods appeared at first the least injured but on examination by Dr. Farquharson was found to have cracked three ribs. All were more or less bruised, but all are making a good recovery.

Federal Radio

Ortho-sonic

Here is
Canada's
**Finest Small
Radio at \$175**

Like any other instrument interpreting music, the finest measure of quality in a Radio set should be "tone" quality.

Full rich, accurate Ortho-sonic tone is an exclusive and patented feature of a Federal.

The new small Federal at \$170 is the junior member of this large and distinguished family of Radio, ranging in price up to \$1,675—and is consistently Federal in quality, selectivity, distance range and beauty of cabinet design.

Federal Prices do not include Tubes
